For When the Going Gets Tough

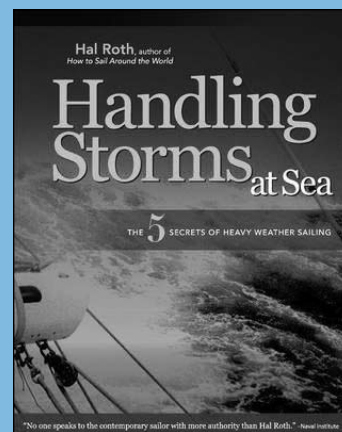

new edition
Adlard Coles' Heavy Weather Sailing
 by Peter Bruce
 6th ed. Hooray—this classic is finally back in print! The standard work on seamanship in tough conditions blends advice on gear and tactics with spine-tingling anecdotes and dramatic photos of storm seas. New chapters cover choosing and deploying storm sails, finding and taking shelter, and managing multihulls in storms. Contributors include renowned sailors such as Olin Stephens, John Shuttleworth, Mike Golding, Robin Knox-Johnson, and Val Haigh.
 272PP. HARDCOVER 2008 \$43.95

new edition
Storm Tactics Handbook
 by Lin Pardey & Larry Pardey
 3rd ed. The Pardeys use clear diagrams to show how heaving-to works and how to make your modern yacht do it, either with sails alone or using a sea anchor. The Pardeys have fully revised and expanded this edition, adding nine new chapters that cover lessons from Cape Horn, an interview with the late Sir Peter Blake on storm survival and heaving-to, the experience of 55-foot *Morgan's Cloud* in heaving-to using a Galerider, and the use of stops for rudder protection.

Left for Dead: Surviving the Deadliest Storm in Modern Sailing History

by Nick Ward & Sinead O'Brien

Nick Ward was aboard the yacht *Grimalkin* during the ill-fated 1979 Fastnet Race, and was left adrift on the disabled boat with another (gravely injured) crew member. The terrifying tempest, countless knockdowns, and struggle to save his friend were too much to relive until now, nearly 30 years later. Most of his account comes from notes he wrote while convalescing from his own injuries.

Against the Flow: The Inspiring Story of a Teacher turned Yachtswoman

by Dee Caffari

Dee Caffari is the first woman to sail alone around the world against the prevailing winds and currents. The story of her 2006 feat tells of physical hardship (34 days of gales, 12-metre waves, cyclones, a lightning strike), solitude, sleep deprivation, and fear of equipment failure. It is also about a woman who stepped outside her safety zone and gave up a good job and financial security, all because she wanted to sail.

by Louise Osmond & Jerry Rothwell

The amazing true story of Donald Crowhurst, a free-thinking electronics inventor who, in the 1960s, entered what was a daring and innovative nautical race: a

solo, non-stop, round-the-world yacht race. Crowhurst was driven by a desire to prove that his on-board computer could revolutionize sailing. As the race progresses, his reports of his positions at sea showed him leading and far ahead of Robin Knox-Johnston, his main competitor. But as the world waits for this extraordinary man to sail into port to a hero's welcome, the jaw-dropping truth is revealed. 93 min. 2007 \$39.95

Life at the Extreme: Volvo Ocean Race 2005-2006 DVD

produced by sunset+vine

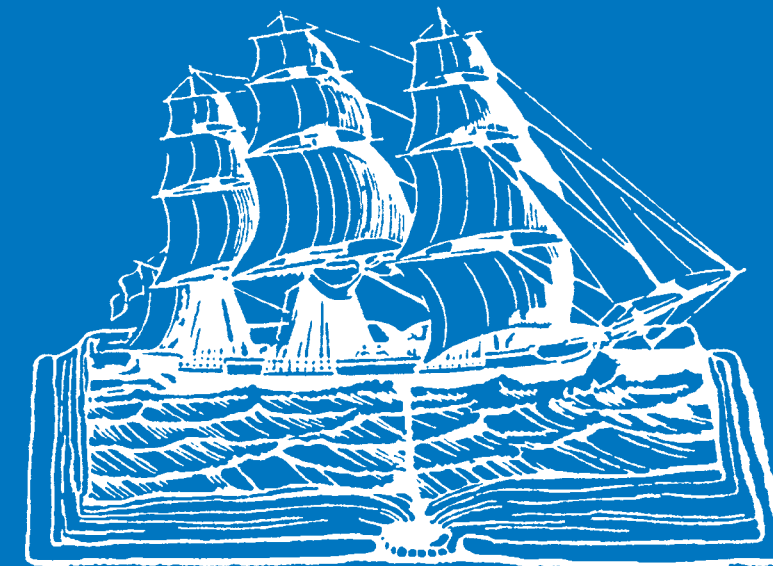

A hit from our 2007 flyer. During the 2005-6 Volvo Ocean Race circumnavigation, each boat had 10 onboard cameras. The result? More than four hours of action, plus extra footage that covers everything from the flavour of life on board (and freeze-dried food) to carbon-fibre boat technology. 270 min. NTSC (North America edition) 2007 \$39.95
