An amazing story of personal courage and the will to survive. In 1913, the Canadian Arctic Expedition sailed from British Columbia on a voyage of discovery. Captain Bob Bartlett commanded its flagship, the *Karluk*. North of Alaska, with the ship caught in the ice, expedition commander Vilhjalmur Stefansson took a party ashore to hunt; while they were gone the *Karluk* was blown far out to sea. The crew was trapped for months and given up for lost. In January the ship finally sunk; the survivors walked over shifting pack ice to an uninhabited island off the Russian coastline. Bartlett then set off with one Inuit companion on a 700-mile trek to bring help.
